The mission of Pennsylvania Dairy Princess and Promotion Services, Inc. is:

- To work with local county committees in their promotional efforts and their dairy princess programs to promote the sale and consumption of milk and dairy products at the grassroots level throughout the state of Pennsylvania.
- To plan and conduct the training of young people to serve as dairy industry promoters now and to be future agricultural leaders; and
- To coordinate the selection and activities of the State Royalty.

We believe that by communicating and working with grassroots promotion efforts and regional dairy promotion programs that we can combat the calcium crisis that many of Pennsylvania's consumers are suffering with and to have a healthier, happier public and a stronger, more productive dairy industry. We have 49 county programs throughout Pennsylvania and encourage you to contact your local county committee to schedule a dairy promotion.
